

# Premium Surfacing for Commercial Pet Facilities & Shelters

**K9Grass®** | by **ForeverLawn®**

“I was fed up with muddy dogs. The difference now with K9Grass is unbelievable!”

**BRITTANY MARRAZZO**  
Owner of Paws In Paradise Doggie Daycare

## What Makes K9Grass Ideal for Dogs?

In 2004 ForeverLawn® identified the need for synthetic grass uniquely designed for use with dogs.

To this day, the unique characteristics of K9Grass® stand alone in the industry. K9Grass is engineered to surpass expectations regarding drainage, cleanliness, safety, and durability.

ForeverLawn enhances pet boarding facilities, doggy daycares, and shelters with artificial grass for dogs. Installing K9Grass will help your facility run more smoothly. No more muddy paws. No more washing the dogs before sending them home. No more complaints from staff or adopting families that the dogs don't look or smell their best.

**safe • drainable • cleanable • durable**

## Unparalleled Solutions

You can breathe a sigh of relief knowing that the dogs in your care are free to run and play happily on a safe and clean surface. **K9Grass**<sup>®</sup> by **ForeverLawn**<sup>®</sup> is uniquely designed to be a key surfacing component to a variety of pet surfacing needs, both indoors and outdoors. See the checklist below to learn how K9Grass is specifically designed for dogs:

- ✓ Proprietary knitted flow-through backing that provides 100% edge-to-edge drainage at a rate of 2,000–3,000 inches per hour (100 times faster than standard turf), for effective elimination of liquid waste and less odor.
- ✓ Short, dense blade structure for superior durability and cleanability.
- ✓ AlphaSan<sup>®</sup> antimicrobial protection built into the blades to combat microbes.
- ✓ An infill-free design that enables the surface to be cleaned easily with a vacuum, extractor, power broom, hose, or pressure washer.
- ✓ High grade installation components built to last as long as the synthetic grass (i.e. 100% plastic boards, stainless steel staples), keeping the grass secure.
- ✓ An extremely drainable base, utilizing AirGrid 3 or drainable 3/8" stone that keeps urine out of the area.
- ✓ Professional installation by a certified ForeverLawn installation team.
- ✓ Over 14 years of experience and more than seven million square feet of K9Grass synthetic grass successfully installed for dogs.
- ✓ An industry leading 10-year Closed Loop Warranty.

ForeverLawn is an international company, that manufactures products in the USA and services clients locally across the country through its network of dealers.
